General Comment

I am opposed to the limitations of options trading within a retirement account, which is a consequence of this proposed regulation.

I am a 72 year old retired US citizen with an IRA. I had taken the time to learn proper options trading. By trading options in my retirement accounts (including my IRA), I have been able to grow my retirement and reduce risk using options trades. When used properly, option trading has actually reduce risks in my retirement accounts.

Please do not remove or restrict the use of option trading in retirement accounts (including IRA's) with this or other regulations.

Thank you,
